College Statement and Statistics

Director Randall Collins

The Hunter College Campus Schools are administered under the auspices of Hunter College of The City University of New York. The campus schools are among the nation's older and larger elementary and secondary schools for educating the intellectually gifted and serve students representative of the racial, ethnic and socioeconomic population of New York City. There are approximately 350 students in the elementary-school program and 1,200 in the secondary-school program. Students are admitted at the kindergarten level in the elementary school and at seventh grade in the secondary school. Far more students qualify and seek admission than can be admitted. Thus, educationally sound criteria are used to determine who is admitted.

The campus schools were established as laboratory schools to provide quality instructional programs and services and expand the base of knowledge that guides the provision of urban gifted education. The concept of and commitment to a laboratory school are imperative for professionals assigned to the campus schools. A laboratory school pursues innovative experiences directed to the quest for ways and means of maintaining and advancing a "state-of-the-art" approach to the education of students who have above-average academic aptitudes. Research and other scholarly explorations of topics that relate to the intellectual, psychological and social characteristics and factors pertinent to the education of these students are essential to the mission of the campus schools.

## City Reso-A Requests FY 2014 (City Council and Borough Presidents)

*(Costs in thousands)*

### Playground Resurfacing

**Phase:** DC  
This project will resurface the deteriorating playground surface that is utilized by 1,600 K-12 students each school day and by members of the community in the afternoons and on weekends. The surface is approximately 25,000 square feet. Preliminary investigations have shown that the scope of work must increase to properly repair the subsurface; this request is for the additional funds required to proceed. Hunter College is working with CUNY to select an appropriate consultant.

**Anticipated Completion:** June 2014  
**FY 2014 Request:** $750  
**Prior Funding Received:** $750

### Main Entrance and Lobby Renovation

**Phase:** DCE  
The Hunter Campus Schools facility was constructed in the late 1960s and has since received very few upgrades. The main entry is not sufficient to accommodate the students, staff and visitors. This project will replace the sub-standard entry doors, provide additional security for students and other occupants, replace the insufficient lighting with new, energy-efficient lighting, improve ADA access and improve the overall function and aesthetics of the entryway to make more efficient use of space in an urban setting.

**Anticipated Completion:** June 2015  
**FY 2014 Request:** $750  
**Prior Funding Received:** $0

### Reso-A Request FY 2014 Total

$1,500
