Essential Learning Goals
The City University of New York

Preamble

The purpose of general education at the City University of New York (CUNY) is to assure that students graduate with well-rounded knowledge, a critical appreciation of diverse cultural and intellectual traditions, an interest in relating the past to the complex world in which they live today, and the ability to help society create a fresh and enlightened future. General education must also develop students’ intellectual curiosity and commitment to lifelong learning. The purpose of the first thirty credits of the Common Core of general education at CUNY is to expose students to a broad range of knowledge and skills described below, enabling them to engage in more sophisticated study and analysis at successively higher levels as they complete their degrees.
