CUNY’s Annual Reception Honoring Award and Grant Recipients

WEDNESDAY, DECEMBER 7, 2011
THE GRADUATE SCHOOL AND UNIVERSITY CENTER, CUNY
NEW YORK CITY
WE SALUTE OUR AWARD-WINNING FACULTY

We are delighted to celebrate the many achievements of CUNY’s exceptional faculty. Our annual “Salute to Scholars” offers a formal opportunity to congratulate those who were awarded research grants and professional awards in the last year and to thank our entire faculty for their accomplished scholarly work. As recipients of Pulitzer Prizes, Guggenheim Fellowships, National Science Foundation grants, National Book Awards, MacArthur Fellowships, and many other grants and awards, our faculty continue to be recognized at the highest levels for their creative and scholarly efforts. Their work enriches our students and our University and contributes to a body of knowledge that advances learning at all levels. The original inquiries of scholar-teachers across CUNY’s 24 colleges and professional schools are supported by city, state, national, and international agencies and organizations, and we thank our funders for their commitment to encouraging discovery. CUNY Research Foundation figures indicate that in fiscal year 2011, CUNY faculty and staff were engaged in approximately $387 million in contracts and research awards for work in nearly every discipline. This is an exciting time to be at CUNY, as we continue to work together to grow the University’s research capacity. Investing in our faculty and their work remains a top priority at the University. Our accelerated hiring efforts over the last decade have brought more than 1,700 talented scholars to CUNY and opened up rich new areas of research. Our Decade of Science initiative, running through 2015, is focusing on expanding research facilities, laboratories, and equipment and recruiting outstanding graduate students. CUNY’s Advanced Science Research Center, now under construction, will enable us to attract renowned scientists to our faculty, compete successfully for large collaborative research grants, and expand our capacity to commercialize our intellectual property. We applaud the scholarship and research undertaken across the University, which is central to CUNY’s historic mission. Faculty discoveries improve the human condition, assist local communities, and enhance our students’ academic experience. We take great pride in the very special role our faculty play in advancing learning through their distinctive scholarly work. Congratulations to this year’s award winners.

RESEARCH, TEACHING AND SERVICE

It is a sincere pleasure to congratulate you, members of the faculty of The City University of New York, on your most recent prestigious national awards and recognitions. The grants, fellowships, book prizes, and other honors that we acknowledge and celebrate today reflect the stellar products of your talents and intellectual engagements, as well as the promise of your scholarly and creative contributions-in-progress. Please know that all of us at CUNY are exceedingly proud of you and your accomplishments. Each of you has embarked on an academic life accepting the challenges—and sacrifices—that can accompany its rewards. Sometimes, those challenges and sacrifices may have seemed overwhelming. Not today. Thank you for all that you do—each and every day, within as well as outside the classroom—as a member of our CUNY community. Thank you for so wonderfully fulfilling the tripartite mission of research, teaching, and service, to the benefit of the entire University. Your research and creative endeavors not only inspire your colleagues and students, but they also enrich your classes and service activities. In many cases, you have engaged undergraduates and graduate students in your projects; how well we understand that it’s precisely these kinds of mentored scholarly opportunities that often provide the very best educational experiences. Your research and creative activities resonate throughout our city, state, nation, and global community, and we could not be happier that others have recognized this essential work. CUNY salutes you! Congratulations, once again.

— Alexandra W. Logue
Executive Vice Chancellor and University Provost

ACKNOWLEDGMENTS

For his long-standing support of this event, we are deeply grateful to Mr. Jack Rudin, whom the University counts among its dearest and most steadfast friends. Over the years, Mr. Rudin and the entire Rudin family have assisted the University in numerous ways, including support for the Macaulay Honors College University Scholars Program, the Samuel Rudin Distinguished Visiting Scholar lecture series at The City College, and the Lewis and Jack Rudin Center for Criminal Justice Partnerships at John Jay College of Criminal Justice. We are enormously grateful for the opportunities each gift offers the University and its students.
